### Who We Are

A tenacious nonprofit founded in 1998, **River Partners brings life back to California rivers**. We advance an innovative model of conservation that harnesses the power of restored riverways to create a thriving future for the state's environment and communities.

Blending modern farming practices, cutting-edge science, and diverse alliances, River Partners reforests and reconnects river landscapes and critical wildlife corridors at an unprecedented pace and scale. We've restored more habitat along impaired California rivers than anyone else in the western U.S., having led hundreds of projects across nearly 20,000 acres throughout California. Our efforts result in a suite of tangible wins for struggling wildlife, flood safety, climate resiliency, water conservation, healthy communities, and strong local economies.

We are growing fast and looking for passionate team members to help us increase our pace and scale of restoration.

### Why We Do It

Healthy rivers are essential for a vibrant California. They provide fresh water for growing our food, economy, communities, and wildlife found nowhere else. Rivers support more species and in greater numbers than any other ecosystem in California—making our state a worldwide biodiversity hotspot. Yet just 5% of our native riverside habitat remains. What's left needs reviving.

The actions we take during this decade will decide California's future. With their exponential benefits for wildlife, natural resources, and communities, healthy rivers are critical for a flourishing Golden State for generations to come.

### Why You Should Join Us

River Partners offers competitive salaries and benefits, including comprehensive health care insurance, flexible spending accounts, a 401(k) plan with immediate employer matching, paid time off, life insurance, disability coverage, employee assistance programs, other well-being benefits.

We're proud of our supportive culture and focus on work-life balance.
